

Make a Donation and Help Spread the Word!

Whoodini (Barred Owl) and friends live at the nature center and are great teachers, but sometimes they need to visit the veterinarian for regular check-ups or when they are sick. Whoodini the owl and Nina the cow have both needed treatment and rely on ELCCT and friends to support their care! Money raised will benefit Whoodini, Nina, and the other animals in the care of ELCCT, including the reptiles, amphibians, birds, and farm animals, by providing food, vet care, and medications when necessary. It is important to care for the animals so they can live a good life and continue to teach people all over Connecticut about the environment and our connections to it. Can you help us support the animals? They would greatly appreciate it!
